

R.A.C.E. TO DIAGNOSE ALS/MND

Recognize, Assess, Communicate, Expedite

A Call to Action to Refer Early Across Diverse Healthcare Settings

Learning Objectives:

- ⌚ Recognize the early signs and symptoms of ALS/MND across diverse healthcare settings and specialties
- ⌚ Assess clinical features and initiate appropriate investigations (if warranted) without delaying referral
- ⌚ Communicate the need for an urgent onward specialist referral to those with suspected ALS/MND
- ⌚ Expedite referrals — even in the absence of complete diagnostic confirmation — and ensure referral letters clearly communicate key clinical findings to support triage
